

# GLASS OF SUNSHINE

SHELBY BALL

CREATING INTEREST AND GROWING KNOWLEDGE OF THE CITRUS INDUSTRY, ITS HISTORY, AND ITS FUTURE.

## MODULE 1: GROVE TO GLASS

Students will be able to identify the steps along the supply chain that are necessary to take a single orange from grove to glass

## MODULE 2: GREENING

Students will be able to describe the effects of the *Asian Citrus Psyllid* on orange groves

## MODULE 3: LIQUID GOLD

Students will be able to calculate the economic impact of a local commodity

## MODULE 4: CAPSTONE

Students will be able to implement the experimental design process

Why is it important that consumers are aware of local commodities?
